

THE BUZZ

Vol. I NO.1

July 19, 2016

As the new term begins and children return back to school, we once again bustle with joy and excitement as we head to another academic year 2016-2017. We come back to building a new and positive energy and thinking amongst the teachers and the students alike.

Every school is a store house of creative minds. And we at Adarsh believe that each and every child has an innate creative spark in them. What you see today, "The Buzz", is the official school newsletter of the year 2016-2017, that captures the momentous experiences and events we organize in our school.

We began our school year with "The Environment Day" from the 5th to 15th June, with teachers planning various environment based activities, that is, both in the class and outdoors. A special assembly was conducted for "Kranti Din" on 18th June by the students of Std X B along with their class teacher, Mrs. Svetlana Borges. We also saw an active participation of students and staff members alike in the International Yoga celebrated on 21st June 2016.

Do keep your eyes on this page, for we keep updating the newsletter every month. For this is not the end. Entries by students and teachers are most welcome.
